

Proving Tank

SSSI Aviation and **SSSI Process** are suppliers and manufactures tank's of volumetric accuracy for meter accuracy checks and tests. Master Meters, and tanks truck Calibration s. Capacities are from 50 to 5000.

These containers are designed and building d according to international standards IS: 2341 - 1963 and the manuals of weight and measurement

General Specifications:

- *Capacity:* 50,100,200,500,1000,1500,2500 5000
- *Visual glass Meter:* +- 1% of the tank capacity. (TC)
- *Displacement of the tube:* +- 0.5% T C
- *Thermometer:* Steel mercury 0-50 °C.
- *Bubble Level:* Flat

- *Container type:* Tester open volume
- *Body:* Carbon steel with epoxy finish or stainless steel inside.
- *Graduate crystals:* borosil glass
- *Drain Valves:* Stainless steel.
- Structure: Carbon Stee
- **Optional:**
 - A. Valves covered insulation
 - B. pump-explosion-proof motor
 - C. Hose
